

Cookie Policy

Cookie policy for the Apptimate Academy course platform

Document	Cookie Policy
Service	Apptimate Academy (online course platform)
Provider	Apptimate B.V. (KvK-nummer 89656202)
Version	1.1
Effective date	30 August 2026

1. What Are Cookies

Cookies are small text files placed on your device when you visit a website. On apptimate.academy we use cookies and similar techniques as described below.

2. Which Cookies We Use

2.1 Functional cookies

We use a functional session cookie that is necessary to keep you logged in and to remember your language choice. This cookie is strictly necessary for the operation of the Platform; no consent is required for it.

On our side only, we link that same session cookie to a record of your active sign-in. This lets us monitor that an account is not signed in on more devices at the same time than permitted; your account is, after all, personal. This too falls under the strictly necessary, functional use: we do not use this data to track your behaviour, for advertising, or outside the Platform.

2.2 Analytical and tracking cookies

At present we do not place analytical or tracking cookies and do not use external analytics services. Should we do so in the future, we will place such cookies only after your consent via a cookie banner and will update this cookie policy accordingly.

3. Third-Party Services

The Platform loads no components from third-party servers. The styling (Bootstrap), the fonts, the scripts, and the images are held on our own server and are loaded from apptimate.academy. When you view the Platform your browser therefore makes no connection to a content delivery network or a font service, and your IP address does not reach a third party by that route.

4. Managing Cookies

You can manage or delete cookies via your browser settings. Disabling the functional session cookie may prevent you from staying logged in.

5. More Information

For the processing of personal data, please refer to our Privacy Policy. Questions may be directed to academy@apptimate.nl.
